

Air1 is not just radio -- it is a way to reach people and touch their lives with a positive message -- Hope in the free gift of God, Jesus Christ. I remember one morning when a song brought me face to face with God's greatness -- GOD was REAL -- I cried. If Air1 was displaced by an LPFM broadcaster I would stop listening to the radio. If Air1 is displaced by an LPFM I would be very sad. Air1 means a lot to me - I even show my committment to the station by contributing \$50 a month, which for a student isn't trivial. I want others to hear what Air1 has to say. Don't displace Air1! Kids (not to mention adults) are exposed to so much negative stuff these days -- music especially -- either it is violent, talks about abusing drugs, or it's lyrics glorify sexual promiscuity. Air1 benefits the community because it exposes us all to a good thing. It reclaims the radio waves and reminds us that everyone is not pushing violence, sex, and drugs. Air1 just plain ROCKS!
